Letter of reference

Since 2005 the National and University Library has continually used the services of RR & CO. Ltd. Expert consultants in project preparation for our projects, applied to EU and other grant programmes, EFAMT tool and consulting for the projects administrative-financial management, and introduction of full indirect cost model in our organisation.

Our satisfaction with the professional level of services, always delivered on time and in line with our highest expectations, enables us to recommend both the company and their product EFAMT for use in your organisation.

The consultants of RR & CO. Ltd. have been able to answer all our questions and queries on a high professional level, but at the same time understandable to both experts and non-experts in the area of expertise. They are invaluable support to our organisation; without them, we would not be able to secure a significant portion of outside funding for National and University Library of Slovenia. For that reason, RR & CO. Ltd. is important partner in our mission. We recommend their services to all organisations.

Sincerely yours,

Zoran Krstulović, MA
Deputy director
